PROFESSIONAL SUMMARY

Results-driven Virtual Operations & Pre-Construction Administrative Specialist with over 5 years of experience supporting capital project controls, pre-construction planning, and workflow automation for startup founders, agency owners, and AEC practice leaders across California, Texas, Florida, New York, and Arizona. Proven expertise in Procore, Bluebeam Revu, Smartsheet, Excel budget modeling, and CIP project extraction—reclaiming 10+ hours weekly for decision-makers.

CORE COMPETENCIES & SOFTWARE STACK

Project Controls: CIP Research, Pre-Con Look-Ahead Schedules, RFI/Submittal Logs, ADA Audits

Cost Estimating & Valuation: Code Price Matrix Modeling, Square Foot Rate Calculations, DOT Mile-Marker Costing

Software Stack: Procore, Bluebeam Revu, Dodge Global Network (IRIS), Smartsheet, Advanced Excel

Virtual Operations & Admin: Executive Inbox Triage, Client Intake, Salesforce, MS Teams, Zoom

WORK EXPERIENCE

Freelance Remote Project Controls & Administrative Specialist

2023 – Present | Remote

- Delivered fractional pre-construction administrative coordination, document control, and project tracking for multi-million dollar capital improvement projects across California, Colorado, Texas, and Illinois.
- **Manhattan Middle School Improvements (Boulder Valley School District RE-2, CO):** Supported project management from pre-con planning through active construction tracking across plumbing repairs, concrete work, ADA compliance, and a \$455k CTE learning space overhaul.
- **Public Safety Campus Program (Mountain View, CA):** Executed pre-construction administrative coordination and master submittal logs for a \$100M+ unified public safety building and multi-level parking garage.
- **RELLIS Campus New Nuclear Reactor (TX) & Municipal Water Facilities (CO):** Maintained master document logs, submittal registers, and multi-agency project records with zero compliance gaps.

National Public Planning Reporter / Remote Project Controls Specialist | Dodge Construction Network

2018 – 2023 | Remote

- Monitored Capital Improvement Plans (CIPs), State Revolving Funds (SRF), Bond Referendums, and municipal agendas across major US regional territories.
- Created and updated initial Dodge Reports (V1s), logged RFIs, tracked A/E selection schedules, and maintained strict project deduplication.
- Utilized Code Price List v3.2 matrices to calculate preliminary project valuations across General Building (GB), Civil/Engineering, and DOT sectors.
