KERR MAANGUE

Assistant Property Manager | Real Estate Operations & Construction Data Research

Location: Philippines (Remote) | Email: kerr.maangue14@gmail.com | WhatsApp: +639524763002

PROFESSIONAL SUMMARY

Assistant Property Manager and real estate data researcher with six years of combined experience in residential and commercial property operations and construction project research. Skilled in resident relations, lease administration, rent record-keeping, vendor and maintenance coordination, property inspections and compliance documentation, supported by permit, zoning and market-data verification for commercial and public developments.

CORE COMPETENCIES

Resident & Tenant Relations: inquiries and requests, onboarding and offboarding, move-in and move-out coordination, follow-up

Lease Administration & Compliance: lease files, renewals, rent collection records, inspection and compliance documentation

Facilities & Admin Operations: scheduling, inbox management, logs, reports, financial record-keeping

Maintenance & Vendors: work-order tracking, vendor and contractor scheduling, inspections, contractor records

Market & Construction Data: permit and zoning research, project verification, deduplication, valuation with Code Price List v3.2

Tools: Excel, Google Sheets, Microsoft 365, Gmail, Google Calendar, Zoom, Dodge Global Network (IRIS)

WORK EXPERIENCE

Assistant Property Manager 2024 – 2026

Towne Properties | Cincinnati, OH (Remote)

- Handled resident communication and service requests for commercial and residential units in Ohio, documenting each issue through resolution.
- Supported tenant onboarding and offboarding, including move-in and move-out coordination.
- Administered leases: maintained lease files, tracked renewal and expiration dates, and prepared routine notices.
- Maintained rent collection records and financial documentation.
- Scheduled vendors and maintenance work and coordinated property inspections; kept work orders, vendor details and inspection notes organized.
- Prepared compliance and operational documentation and followed up with residents, vendors and staff on open items.

Project Reporter & Data Researcher 2020 – 2024

Dodge Construction Network | Remote

- Verified commercial and public construction projects against public permits, zoning and planning documents.
- Tracked developments through capital improvement plans, bond referendums and municipal agendas across major US regional territories.
- Managed vendor and contractor data attached to project records and maintained strict project deduplication.
- Created and updated initial Dodge Reports (V1s) and managed client data workflows from research through report updates.
- Analyzed project and building-material data across the project lifecycle, and calculated preliminary valuations with Code Price List v3.2 across General Building, Civil/Engineering and DOT sectors.

EDUCATION

Bachelor's Degree in Education — University of Southern Mindanao, Philippines
Master's Units in Technology Education — postgraduate units in educational technology, instructional systems and digital workflow management.
